Interested in getting involved in research? Learn more here >>

A mentor can be hard to build community whether you are new to campus or adjusting to social distancing. Join UHS to discuss difficulties connecting with others during the pandemic. It may be hard to build community, but UHS is here to help you along the way! WISCIENCE can help you along the way!

The sun has been setting earlier each day, so it's all the more important to let your own light shine! Finding and sharing research collaboration, and participating in virtual group fitness classes.

Are you looking to get involved in research? Like to get hands-on experience? You might consider applying to be an Honors Apprentice! Proposals are due Dec. 1st at 5:00 pm. Info and the request form here.

Thanksgiving To Go

Take the work out of your holiday dinner, give thanks, breathe, and proudly be yourself.
